

HILLTOPPERS
RIDING ACADEMY

Hunter/Jumper Clinic

June 25th, 2011

This Clinic will benefit Hilltoppers Rescue Pony, Shelbie. She is in dire need of surgery to correct damage from an old fractured jaw. Without the surgery, Shelbie's life could be taken due to her jaw shattering from the prolonged infection at any time.

This clinic will be run in two sessions.

Session I: 9am-11am Group Riding
11-11:30am Classroom Segment

This session is designed for students who are not very familiar with English riding. Maybe a 4-H kid who has started out Western and has been interested in what it takes to compete in the English arenas!

This session will definitely familiarize students with the proper English riding techniques in a comfortable, fun learning environment. Auditors are welcome.

Session II: 12:30pm-2:30pm Group Riding
2:30pm-3:00pm Classroom Segment

This session is designed for students who have ridden English, and are comfortable in the saddle. Students must be able to at least post while trotting to be in this session and working on the canter. The students who are ready, will hopefully be jumping around a small course by the end of this session! Auditors are welcome.

The Classroom Segment is meant to create a learning environment while off of the horse. Students will receive handouts during this time, as well as a goodie bag from the local companies who support Hilltoppers Riding Academy!

Clinic Tuition:

\$45-Mounted Student

\$15-Auditing Student

(For those without their own horse, a lesson horse may be reserved in advance for an additional \$10)
